DESTINATION MALDIVES / NATIONALITY ROMANIA

ENTRY REQUIREMENTS

Coronavirus:

The entry is partly possible.

The following border crossings are closed:

- Sea route (until further notice)

Travel within the country:

Travel within the country is only partially possible until further notice. Depending on the infection situation, there are different restrictions on travel between the islands.

Important on entry:

To enter the Maldives, you need to confirm your booking with a certified accommodation provider. Accommodation should be booked for the entire stay (with exceptions for transit travellers). Only those who can present such a booking confirmation can get the visa on site. In the meantime, stays in various certified accommodation are also permitted, but only after obtaining the appropriate permission from the Ministry of Tourism two days before the start of the trip.

A negative COVID 19 test must be presented. The test must have been carried out by PCR method and must not be older than 96 hours. The result must be presented in English. Only children under one year of age are exempt from the test. An entry form/health form must be completed. You will find the corresponding form under the following link: <https://imuga.immigration.gov.mv/ethd/create>. The registration must be made within 24 hours before entry. On arrival, health checks are carried out with temperature measurements. COVID tests may also be performed. Problems may arise if travelers show symptoms of illness. Affected travelers must expect quarantine measures or entry bans. If travellers test positive for the coronavirus during their journey, they must expect further measures to be taken. Masks are compulsory at border crossing points.

Transit:

Transit is possible.

Important at the destination:

- State of emergency: until probably 5 December 2020

- Local curfew: yes (until further notice) - nightly

- Hotels/holiday accommodation: partly open

- Restaurants/Cafés: partly open

- Museums/Sights: partly open

- Masking obligation: yes

- Minimum distance: 1.00 Meter

- Prohibition of assembly: yes, from 15 persons

- App:

Entry is possible with the following travel documents:

Passport

The travel document must be valid for 6 months after the entry date.

Temporary passport

The travel document must be valid for 6 months after the entry date.

Child passport

The travel document must be valid for 6 months after the entry date.

Please ensure that your travel documents are complete and in good condition, and that they have enough empty pages.

Minors:

Minors require their own ID document and they should be able to give evidence of consent from their custodian(s) if travelling alone or accompanied by one parent only.

Documents reported as lost/stolen:

You are advised against entering with documents that have been reported as lost or stolen. They may still be reported as lost or stolen on the border control systems, and entry may be refused.

Airline requirements:

Please ask your airline about the documents you need to bring before you travel. Airline requirements differ from national regulations in certain cases.

VISA REQUIREMENTS

A visa is required.

Visa types

Visa on arrival

Explanation: You can apply for the visa there, at official border points, when you arrive.

The visa is valid for 30 days.

Coronavirus:

A prerequisite for obtaining a visa on site is proof of a booking confirmation in a resort for the entire duration of the stay. Travellers must also provide their contact details when a visa is issued.

Documents required:

- Ticket to fly onwards or return
- Evidence of sufficient funds
- Evidence of accommodation

NB:

You can extend the visa for up to 90 days. Any extension requires a special application that needs to be made locally. There is no guarantee that the visa will be authorized.

TRANSIT VISA REQUIREMENTS

Anyone who requires a visa needs a transit visa.

HEALTH INFORMATION

The following vaccinations are required if entering the country:

- Yellow fever (see below)

The following vaccinations are recommended if entering the country:

- Vaccinations in compliance with WHO recommendations for routine immunisation
- Hepatitis A
- Hepatitis B, Cases of long-terms stays or special exposure
- Typhus, Cases of long-terms stays or special exposure
- Meningococcal disease (ACWY), Cases of long-terms stays or special exposure

Measles:

The World Health Organisation (WHO) has said that low measles vaccination coverage is a threat to global health. So both children and adults should check that they have vaccination coverage and get it up to date where necessary.

Coronavirus:

Due to the increasing number of infections with the respiratory disease COVID-19, increased health checks and longer waiting times during travel must currently be expected. Due to cases of illness in almost all countries of the world, there is a general risk of infection via droplet infection. Travellers should therefore inform themselves about the spread of the disease and possible protective measures in their destination. They should also take into account the different standards and capacities of health care systems.

Poliomyelitis:

All travellers entering or leaving countries at risk of poliomyelitis infection are required to have a polio vaccination. Proof of this vaccination must be carried along.

Pregnant women:

Note that pregnant women face the following health risks:

- Zika virus
- Chikungunya fever

Children:

Note that children face the following health risks:

- Dengue fever

Yellow fever:

A yellow fever vaccination is required if arriving from regions infected by yellow fever. Appropriate evidence should be carried. All travellers over the age of 9 months must have the vaccination. This also applies to people in transit for over 12 hours at the airport in a country that is infected with yellow fever.

Countries with a current risk of yellow fever infection:

Africa:

Equatorial Guinea, Ethiopia, Angola, Benin, Burkina Faso, Burundi, Democratic Republic of Congo, Cameroon, Côte d'Ivoire, Eritrea, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Congo, Liberia, Mali, Mauritania, Niger, Nigeria, Rwanda, Senegal, Sierra Leone, Somalia, Sudan, Southern Sudan, Tanzania, Togo, Chad, Uganda, Central African Republic, Zambia

Central and South America:

Argentina, Bolivia, Brazil, Colombia, Ecuador, French Guiana, Guyana, Panama, Paraguay, Peru, Suriname, Trinidad and Tobago, Venezuela

Final requirements:

Please note that health information always depends on the health of the individual traveller and that it is no substitute for consulting a doctor or tropical medicine professional. Entry, visa and vaccination requirements can always change at short notice, and specific exceptions may occur. Only the relevant diplomatic mission can make legally binding statements or provide information above and beyond that given here. Please ask about this in advance.
